

REASONS TO USE ELECTROMAGNETIC RUST PROTECTION INSTEAD OF SPRAY METHOD

- * One-time “application” – SAVES \$\$\$\$\$
- * No more oily mess - environmentally friendly
- * No more yearly logistics nightmares
- * Defender attacks rust 24/7, all year around, by electromagnetic radio frequency pulses which reach cracks and crevices that spray cannot reach
- * WARRANTY available– Up to 7 years for perforation, backed by Royal Sun Alliance
- * **SCIENTIFIC TESTING PROVES THAT THIS DOES WORK....**
(Underwriters Laboratories, Ohio State University and others)
